

**MEET RENEE
GRADE 11
FUTURES
STUDENT**

Renee is a strong student who challenges herself academically. She lives with her aunt and four siblings. Renee's English teacher wants her to attend summer school so she can take advanced communications classes next year. Renee has worked a little to help her aunt out financially but she can't spare a lot of time from her studies because she must keep her grades up to get into college. She takes pride in her writing skills and is especially interested in journalism, a field she hopes to pursue while in college. She's anxious to do well on her SATs this year.
(This is a composite profile, not an actual student.)
