

**MEET THOMAS
GRADE 12
FUTURES
STUDENT**

Thomas, his mom and two toddler sisters live on welfare. His mother has tried to get a job but can't support the family on the meager paycheck she's been offered. She is too busy caring for the little sisters to devote much time to Thomas. Despite that, he dreams of going to college and works hard in his high school classes. He holds down a part-time after school job. He applied to 5 colleges but is having trouble completing required financial aid forms. He also needs help filing his income taxes. He's interested in a math career so he was linked with an accountant for job shadowing.
(This is a composite profile, not an actual student.)
