

Exelon Foundation STEM Academy

Interested in Science, Technology, Engineering, or Math? Want to explore sustainability, energy, and climate change?

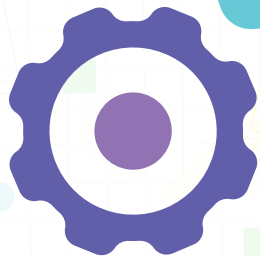

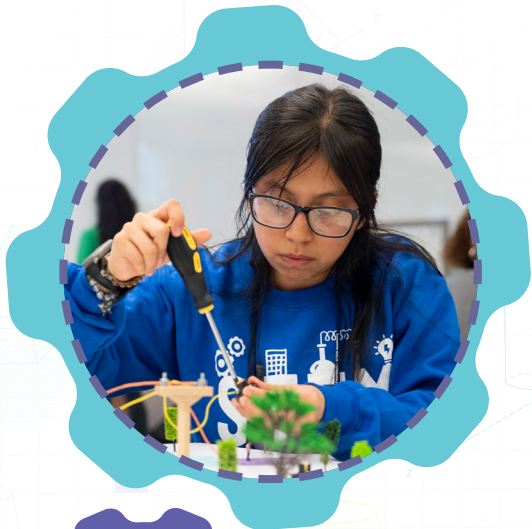

Sunday, July 6th, 2025 – Friday, July 11th, 2025
Saint Joseph's University

Come participate in a free program designed for young women interested in energy & sustainability!

Ready to dive into an exciting field and make a difference in the world? Join us for the **Exelon Foundation STEM Academy**, a **free, week-long, residential leadership program** at **Saint Joseph's University**! Designed just for young women curious about **energy and sustainability**, this program offers hands-on workshops, interactive field trips, and small group discussions with inspiring women leaders from across the region. You'll build leadership skills, collaborate on real-world energy projects, and even compete for prizes in an exciting energy challenge! Plus, each participant will receive an **iPad** for program activities—yours to keep after the Academy wraps up.

Don't miss this chance to connect, create, and explore your future in STEM!

“ I think that this academy was one of the most valuable experiences that I have gone through. Being alongside other girls gave me the opportunity to bond on such a deep level, and I made so many valuable connections through this academy. ”

Learn more and apply, go to:
www.exelonstemacademy.org
